

## Installation Guide:

### Step 1:

Wipe the screen with a lint-free cloth to remove dust and contaminants.

### Step 2:

Carefully peel off the protector skin by lifting the edges of the skin. Take precautions as not to leave any finger prints on the protector surface.

### Step 3:

Carefully position the protector over the surface of your PDA. When the protector is aligned, gently lay down the protector onto the screen of your PDA.

## Other Guides:

### Remove Guide:

Remove the screen protector by scotch tape. Paste it about an inch on one corner of screen protector firmly. Hold the other end of the tape and slowly lift it up.

### Wash Guide:

Wash the screen protector by dipping it in water or holding it under a running tap. Dry it by using hair dryer. Alternatively, use scotch tape to pull the dust, lint, or contaminants from the screen protector.

### Remove Bubbles:

Use a credit card and gently push remaining air bubbles out to the sides of the device screen.
